PROJECTS & COMPETITIONS

Fordham Algorithmic Trading | New York, NY | **Trade Volume Project** [Tools Used: Python • Excel] 01/2024 - 05/2024

- Led a team of 5 in a semester-long project developing market impact models to generate pre- and post-trade functions on a basket of 50 stocks and produce trade recommendations
- Applied Python libraries including pandas, numpy, scipy, statistics, and matplotlib to build models and visualize results
- Constructed models using implementation shortfall methodology, non-linear regression, and algorithmic trading data to estimate parameters

Fordham Credit Program | New York, NY | **Distressed Debt Case Projects** [Tools Used: Excel]

08/2023 – 05/2024

- Completed over 10 case studies of real life distressed and special situations by analyzing financial statements, liquidity, and capital structure to generate trade recommendations
- Performed company valuation via comparable companies and comparable transactions analyses
- Modeled recovery rates in bankruptcy via analyzing capital structure components and their covenants

EXPERIENCE

BNY | Pittsburgh, PA | **Data Operations**

06/2023 – 08/2023

- Designed and implemented data storage, querying, manipulation, and visualization solutions for the Data Operations and Robotics team over a 10-week period and pursued learning objectives in R and Python
- Built a new Microsoft Access database for cross-department data with querying capabilities across 6 departments, over 15 teams, and over 30 work processes; used Power Query Editor to import historic data
- Utilized advanced visualization techniques including drilldown charts in Tableau and ggplot2 in R
- Presented progress on projects in a midpoint and formal 10-minute final presentation to operations upper management

Roasting Plant Coffee | New York, NY | **Barista, FP&A Analyst**

09/2024 – 01/2026

- Delivered scalable FP&A solution, calculating EBITDA for international stores across geographic regions
- Oversaw the implementation of Datarails software to automate financial statement creation and analysis
- Worked directly under Head of Finance to prepare an FP&A project and presented results to CFO

LEADERSHIP & VOLUNTEER ACTIVITIES

Fordham University Residential Life | New York, NY | **Resident Assistant**

08/2021 – 05/2024

- Cultivated a safe and inclusive community on a floor of 40 students and a building of over 400 students
- Supported Residential Life staff by enforcing policy and fulfilling administrative duties
- Created and oversaw 20 programs per year designed to emphasize Jesuit values, collaborate with campus services, and promote academic and personal wellbeing for students

Alternative Investments Club | New York, NY | **Cohead Researcher of Private Equity Secondaries**

08/2020 – 08/2021

- Researched trends in PE Secondaries market to create yearly report sent out to other club members
- Attended relevant virtual speaker events hosted by club several times per semester

Fordham University Men's Crew | New York, NY | **Crew Member**

08/2020 – 02/2022

- Trained 5 days throughout the school year
